Senior Designer

Job brief

We are in need of an experienced designer (or very hands-on art director) to work within a tight knit multi-disciplinary team. You will need to be comfortable working proactively, sharing and presenting ideas with the team and clients on a daily basis and working in agile. Your role is likely to be very hands on as well as being strategic.

Responsibilities

- Collaborate with the team and project lead to work on multiple design ideas needed for the project's visual design and experience.
- Conduct formal or informal research relevant to the project at hand.
- Effectively communicate design ideas within the team.
- Execute all design stages from conceptualising, visual design, final artworks to art direct internal and external shoots.

You must have...

- Around 2-3 years of work experience in a design studio, with some client facing roles.
- Good English speaking and writing skills
- A design education degree from National Institute of Design, College of Art New Delhi, J J College Mumbai, Srishti School of Design or any other recognized design college is must
- The ability to solve problems creatively and effectively.
- Be up-to-date with the latest trends, techniques, and technologies.
- Great attention to detail
- Great typographic skills
- Excellent illustration and graphic design skills
- Good understanding of brands and their markets. Economic reality and socio-economic context in India
- Good understanding of production of print projects at a printing press

- Experience in preparing artworks of press ready files
- To be able to estimate and manage time
- To be able to work collaboratively with other disciplines
- Adobe suit of applications skills and ability is must

Nice to have...

- Interest in UX/UI projects
- Writing skills
- Deep interest in other things, besides design
- A reader of daily newspaper and books
